THE SCHOOL BUILDING.

Everyone appears to be in the dark about the proposed new school building. Several questions have been asked the promoters of the scheme in regard to the location of the site, the amount of bonds to be issued and who is to have the contract?

do not seem disposed to accord the voters the voters of Carson any light on these important subjects. The people of Carson want a new school building and the children need one, but the promoters of the scheme must not expect the voters to go blindly to the polls and anthorize the extenditure of \$60,000 unless they know who is to have the handling of the

They presume a good deal upon credulity of a long suffering public if they do. The people of Ormsby have been humbugged a good many times but they are not so easily hoodwinked as they used to be and the idea prevails all over the city as the present time, that the whele thing is a scheme to enable sape body to get a fat content and som hous else to: unload a piece of real estate on the CREOSOZONE to the roosts will taxpayers.

Not a Man to Siur.

The Enterprise prints the telegram sent by Mr. Nixon of the Silver State to the Silver Convention and charges Nixon with trying to advertise hims Mr. Nixon deserves great credit for the decided and able stand he has taken on the silver question.

He has led public opinion in the east and he deserves all the more credit for his stand on the silver question as he is at the head of a national bank and ninety-nine out of a hundred bankers are against silver. Mr. Nixon has nine-tenths of the voters of Nevada with him in the gallant fight he is making for the chief product of his State.

The New Jersey man who claims that he has an electric road over which cars be run at the rate of two miles a minute has only to demonstrate the feasibility of his scheme in order to gather in a fortune. What the traveling public wants now is speed, and the man who can anni- iron. Each one of our Gem Mills hilate distance may command an imperial revenue.

Any one who does not think the State is declining because of the unjust discrimination against silver will do well to read Judge Well's letter in last evenings Trabune. It paints a picture of desolation and rnin which is only the beginning of the end if we do not soon get silver legislation.

While Senator Dolph the salaried counsel of the Northern Pacific, was denouncing silver comage in Boston side by side with ex-Senator hill of Colorado the Oregon Democratic convention was demanding the remonetization of silver.

Burrowe who was severely wounded in the pantaloons in the Belgium duel, is resting easier. His tailor is speeding toward the field of honor in a special car.

There is a law which, if enforced compels the delivery of all letters for girls under 18 and boys under 21 years of age to their parents or guardians.
